Re: Edmundson E-2 Application

Dear Jeff,

Many thanks for your help in developing our Business Plan and CPA for our recent E-2 Visa Application

The work was complex, time consuming and encountered several adjustments which needed to be carried out often at very short notice. Dealing with several parties did not help but on each occasion you came through and the end result was that, you produced a great business plan which was not only very informative, very detailed and well written but a plan, I honestly believe which will help achieve our ultimate goal.

If we do achieve that goal, I would hope I can call on you to help us with future ventures as they occur.

Many Thanks

Tony Edmundson
